---

I completed my medical education at Istanbul Medical Faculty and continued my academic career at the same faculty and specialized in pediatric surgery and pediatric urology. Between 1997 and 1998, I worked as a research fellow at Department of Pediatric Surgery, Karl-Franzens University, Graz Medical School, Graz, Austria (Head: Prof Michael Höllwarth) with an ÖAD Scholarship. Between 2001 and 2002 I worked with Prof Michael Höllwarth in the same department, with an 'Oberarzt' position provided by the Austrian Ministry of Health. Between 2017 and 2020, I served as the Chair of the Department of Pediatric Urology at Istanbul Medical Faculty, Department of Pediatric Surgery. I am particularly interested in the treatment of children with hypospadias and "Disorders of Sexual Development (DSD)". I was the founder and president of Society for Sexual Development and Hypospadias (www.dsdturk.org) in Turkey. Between 2017 and 2023, the society organized the Hypospadias Study-Days, which is a highly standardized international meeting on hypospadias. I recently described the details of the anatomy of the human glans penis and glanular urethra and invented a surgical technique (Glanular-Frenular Collar-GFC) for the repair of hypospadias, which are published in various journals. I organized 4 international workshops (live surgery) on my technique along with the last three Hypospadias Study-Day meetings. I have participated in numerous live workshops abroad as a speaker and trainer and was awarded "Best Pediatric Surgeon of the Year 2019" in my former department in Graz for my surgical technique, a new concept for the anatomical correction of hypospadias. My research and publications on hypospadias continue with new concepts. In October 2023, I conducted a workshop on hypospadias surgery at Raparin Children's Hospital in Erbil, Iraq, where I applied my technique. My latest work on hypospadias and penile curvature (Mechanics of multilayer flexible pipes: biomechanical insights on penis flexibility that can guide penis surgery) will be presented at the European Society for Pediatric Urology (ESPU) Congress in Vienna in September 2025. Between 2018 and 2025, I was a visiting professor at Sechenov First Moscow State Medical University and continue to work privately in Istanbul.

2018 - 2025	Visiting professor, Department of Pediatric Surgery, Division of Pediatric Urology and Andrology, IM Sechenov First Moscow State Medical University, Moscow, Russian Federation
2017 - 2020	Professor, Chairman, Division of Pediatric Urology, Department of Pediatric Surgery, Istanbul Medical Faculty, Istanbul University
2004 – 2020	Professor, Department of Pediatric Surgery, Istanbul Medical Faculty, Istanbul University
2001 - 2002	Associate Professor, Department of Pediatric Surgery, Medical School of Graz- LKH, Karl Franzens University, Graz, Austria
2000 - 2004	Associate Professor, Department of Pediatric Surgery, Istanbul Medical Faculty, Istanbul University
1994 – 2000	Consultant Pediatric Surgeon, Department of Pediatric Surgery, Istanbul Medical Faculty, Istanbul University
1997 - 1998	Research fellow at Department of Pediatric Surgery, Medical School of Graz- LKH, Karl Franzens University, Graz, Austria
1989 - 1994	Assistant Professor, Department of Pediatric Surgery, Istanbul Medical Faculty, Istanbul University
October 1992	Elective study at Department of Pediatric Surgery, Justus Liebig University, Giessen, Germany
1984 (2 months)	Elective study at Department of Internal Medicine (Prof Michael Tunbridge), Newcastle General Hospital, Newcastle, UK
1982 – 1988	Medical Education-Istanbul Medical Faculty, Istanbul University
